Bacon Cheeseburger Pasta

from Tina Davidson
8 ounces uncooked penne pasta
1 lb. ground beef
6 bacon strips, diced
1 can (10¾ ounces) condensed tomato soup
1 cup (4 ounces) shredded cheddar cheese

Cook pasta according to package directions. While pasta is cooking; cook beef over medium heat in a large skillet until no longer pink. Drain and set aside. In the same skillet, cook bacon until crisp. Using a slotted spoon, remove to paper towels. Drain bacon drippings from skillet. Drain pasta, add to skillet. Stir in the soup, beef and bacon; heat through. Sprinkle with cheese, cover and cook until the cheese is melted. Makes 4 servings.

Combine first four ingredients together, placing an ungreased 3 quart casserole dish. Bake at 400 degrees F for 20 minutes. While baking, slice biscuits into quarters and set aside. Remove casserole dish from oven and stir. Arrange biscuit pieces on top of the chicken mixture; bake until golden (about 15 minutes). Makes 6 servings.

Why are
crooked
teeth
a problem?

Straighter teeth make a difference. Abnormal stress on teeth can lead to premature wear and chipping. If teeth are crowded, it can be harder to clean, harboring harmful bacteria causing bad breathe. Large spaces allow food to lodge between the teeth. This can cause sore and tender gums.

Is Invisalign an option for you? It is as easy as taking your picture and impressions of your teeth. You wear a series of clear aligners, 22 hours a day. Yes, you can talk and drink with them. Straightening your teeth can make a significant difference in a healthy mouth. **And OH, WHAT A BEAUTIFUL SMILE!!**
