

## Get a Younger Smile with Your Cosmetic Dentist in El Reno

We all know a beautiful smile plays a large role in your confidence, as well as how others view you. But, did you know an unattractive smile can also add years to the appearance of your age? An unattractive smile can make you appear years older than what you really are, which is why we fully believe the Chinese Proverb that says, "Every Smile Makes You a Day Younger." Dr. Cohlma, your cosmetic dentist in El Reno, wants to see you smile. We want to see you show off a beautiful smile to hold your head up high with confidence while taking years off your smile's appearance. We'll help you do just that with cosmetic dentistry. We provide a number of services to enhance the appearance of your smile.

### Teeth Whitening

Yellow and discolored teeth not only cause us to want to hide our smiles, but discoloration makes our smiles look older than what they really are. Thankfully, with a [professional whitening](#) treatment in El Reno, we'll instantly brighten your smile for a new, youthful look. Using our in-office treatment, we'll whiten your teeth as much as 8 shades whiter! Or, if you prefer, we offer a home kit that will give you the same results in just a few days.

### Porcelain Veneers

Porcelain veneers are among the most popular option to instantly transform your smile. Using false fronts made of porcelain, light is reflected to give you a whiter, natural-looking smile. Veneers can hide a number of flaws, like chips, cracks and discoloration. In some cases, veneers can even give you a straighter smile by fixing small gaps and overcrowding. We'll customize your veneers to give you the size, color, and shape of teeth you've always wanted - just ask us for a free consultation.

### Invisalign

[Invisalign](#) allows you to finally have a straighter smile without the unsightly appearance of traditional braces. Using clear aligner trays, your teeth will be moved into their proper alignment

while no one even notices you're undergoing orthodontic treatment. Invisalign is the perfect option for teens and adults who want a discreet way to straighten their teeth.

### Enamel-Colored Fillings

If you have dark amalgam fillings putting a blemish on your smile, we can replace them with enamel-colored fillings. Using a composite resin, will make the filling match your existing enamel color for a restoration that blends in with your smile seamlessly.

### Dental Implants

If you have missing teeth, dental implants give you the permanent and natural-looking solution you need for a complete smile. Using titanium posts that are surgically placed into the jawbone, prosthetic teeth are attached to an abutment for a life-long beautiful new smile.

### Dentures

New advancements in dentistry now make dentures function and appear as natural teeth. We offer a diversity of options when it comes to replacing missing teeth with full and partial dentures. We'll give you a truly customized appearance to fit your needs and lifestyle with the best denture standards.
