[El Reno Family Dentistry FREE First Visit™ in El Reno, OK](#)

We know that you do your very best to take care of your family. Healthy meals, a comfortable home, clean clothes, sufficient sleep, and required vaccinations and visits to the doctor when necessary. We also know that there just isn't time for everything. Sometimes your schedule doesn't allow for what seems like an unimportant trip to the dentist. After all, you and your family brush your teeth and floss every day—and no one is in pain—so why

make the time for another appointment in your busy day? Well, at [El Reno Family Dentistry](#) in [El Reno, OK](#), we want to encourage you and each member of your family to see the dentist regularly, so we are offering a [FREE First Visit](#).

A recent survey conducted among Oklahomans shows that only about half of them regularly visit the dentist. [Dr. Michael Kirk](#) and [Dr. Adam Cohlmi](#) and their team at **El Reno Family Dentistry** are out to change that statistic. Not only are there risks to your oral health if you don't visit the dentist, but there are also risks to your overall health. The same bacteria in your mouth that can cause gum disease, have been linked to systemic illnesses and diseases. These include high blood pressure, stroke and cardiovascular disease, diabetes, osteoporosis and premature or low birth weight in newborn infants.

We want all Oklahomans to have the opportunity to see the dentist. Our **Free First Visit** makes squeezing that appointment into your schedule a bit easier.

Your FREE First Visit

Whether for you or another member of your family, your **El Reno Family Dentistry FREE First Visit** will entail a complete and thorough cleaning of your teeth, including the removal of any plaque buildup that can lead to a common and serious oral health concern—gum disease. Did you know that gum disease, also known as periodontal disease, afflicts some 60 million Americans, and most of those people don't know they have the disease? If you've ever noticed that your gums bleed when you brush or floss, then don't delay. Take advantage of the **El Reno Family Dentistry Free First Visit** and schedule your appointment today with Dr. Cohlmi today.

Dr. Cohlmi and a dental hygienist will also carefully check each one of your teeth for cavities. And your **FREE First Visit** includes x-rays, too, so we can uncover any hidden spots of tooth decay or even infection that might be lying below the gum line. We'll also

instruct you on how you can do a more complete job of brushing and flossing your teeth at home to help ensure your continued good dental health.

Schedule an Appointment Today

If it's time for you or another member of the family to see the dentist, then call El Reno Family Dentistry and ask about a **FREE First Visit** with Dr. Adam Cohlma. We serve patients from throughout [El Reno, OK, Minco, Hinton, Calumet, and the neighboring Canadian County areas.](#)
